

Power Line Communications Metering Systems

Whether you need to meter a residential or commercial highrise building, shopping mall, garden-style apartment complex, airport or office park, Quadlogic can bring you all the data you need for accurate customer billing, load profiling and smart energy management.

- Patented PLC is integrated in every meter for remote reading
- Two-way through-transformer technology
- Revenue-grade accuracy (ANSI 12.1)
- Interval and TOU data
- Earn credits toward LEED certification
- Peak demand with date and time stamp
- Real time diagnostics by phase
- Event reporting (power downs, demand reset, tampers)
- Non-volatile flash memory
- Collection from water, gas and BTU meters
- Single platform for commercial and residential customers
- Three-year manufacturer's warranty

MiniCloset-5c
